INTRODUCTION

Welcome to Kenyon College, the Office of Campus Safety sees as it primary goal, to provide the safety and most secure environment possible for all students, faculty, staff and visitors. Formulating and enforcing the traffic rules and regulations is just one of the tools we use to accomplish this goal.

The purpose of this publication is to familiarize you with the College’s motor vehicle rules, regulations and penalties for violation of them. If you ever have any questions or concerns regarding having your vehicle on campus or to the rules pertaining to it, you are encouraged to contact the Office of Campus Safety.

It is our desire that everyone feel comfortable in contacting the Office of Campus Safety, not only when problems arise, but to ask questions and to become more familiar with the purposes and procedures of this office. We sincerely hope that your time at Kenyon College whether a visitor or as a student will be productive and enjoyable.

SECTION I
General Information

Kenyon College’s campus layout is intended to foster the concept of a walking campus. Under most conditions, even the more remote areas of the campus can be reached on foot within ten minutes. It must be kept in mind that having a motor vehicle at Kenyon is a PRIVILEGE, not a right. The information in the manual is intended to make your stay at Kenyon as pleasant as possible.

SECTION II
Parking Lots

Parking spaces at Kenyon College are at a premium. In order for there to be adequate parking for those associated with the college, everyone must adhere to the rules and regulations and use the lots assigned as well as use them properly. Vehicles parked along village streets are subject to the laws and ordinances of the Village of Gambier and the State of Ohio. Parking lots on campus are divided into North, South 1, South 2 and Faculty/Staff Parking, see map in the center section of this publication. It is vital that these areas be properly utilized. Students may only park their vehicles in the student lots for which their parking permit allows.

Vehicle Security

All vehicles brought to Kenyon College: cars, sport utility vehicles, trucks, vans, motorcycles and etc., are susceptible to theft and or vandalism. It is for this reason we require adherence to the vehicle rules and regulations.

Parking lots are lighted and patrolled by the Safety Officers but the following are suggestions to keep persons and property as safe as is reasonably possible.
SECTION III

Vehicle Registration

All vehicles owned by and or operated by Kenyon College students, faculty and staff must be registered with the college. Failure to do so will not absolve the owner and/or operator from fines incurred from illegal parking etc; a fine of $250 will be issued for failure to register a vehicle.

Motor Vehicles at Kenyon College must be registered within 24 hours of arrival at the college. The requirements for registration are as follows:

- Applicant must sign that he/she has read the college vehicle rules and regulations regarding the operation and possession of a motor vehicle at Kenyon and accepts the conditions therein.
- Applicant must have and maintain a current registration displayed on the vehicle from the home state of the vehicle titleholder.  (continued on next page)
• Applicant must have, present and maintain a current operator’s license.

• Applicant/titleholder must provide proof of financial responsibility as required by law in the State of Ohio. In Ohio, the required minimum limits for Bodily Injury Liability Coverage is $12,500 per person injured in any one accident and $25,000 for all persons injured in any one accident. The required minimum limits for Property Damage Liability Coverage is $7,500 for injury to or destruction of property of others in any one accident.

• **Pay for the cost of registration. $200 covers an entire academic year.** A single semester is available for $100, however if it is for the fall semester, the $200 charge will be incurred and a credit of $100 will be rendered once there is proof of the vehicle no longer being on campus. The parking registration fees are applied to the individuals Student Account.

• False or misleading information entered on the registration form may result in disciplinary action through the judicial process of the college, and/or the revocation of the permit without refund.

• Parking Permits will be issued after vehicle registration is completed. Either Online (available at the end of the spring semester of the previous academic year OR paper registration in the Office of Campus Safety (available at any time).

****** The parking permit must be displayed on the right rear bumper or lower right hand corner of the rear windshield of the vehicle. ******
Temporary Permits

Temporary permits are issued for no longer than ten (10) days, and are non-renewable. Circumstances justifying temporary permits would include a substitute vehicle brought to campus while repairs are made on primary vehicle. If a temporary permit is requested more than once by the same student in the same semester, a $20 fee will apply.

Medical Permits

Medical permits are issued to student when illness or injury precludes them from parking in assigned areas. This permit is issued only upon the recommendation of the Health and Counseling Center or attending physician. Any unauthorized alterations to the permit will render it void and result in disciplinary action through the judicial processes of the college and applicable fines will apply. **Medical permits issued to students are not applicable in any of the College’s Fire Lanes.**

Visitor Permits

Temporary parking permits are available for visitors on campus. These are offered at no cost to the visitor at the Office of Campus Safety. The individual requesting the permit must be accompanied by their host. **NOTE:** Visitors are bound by the same rules and regulations as students, faculty, staff and others on the Kenyon College Campus. The host is liable for any and all violations and resulting fines incurred by the visitor.
SECTION IV
General Rules

Because Kenyon College has a limited number available parking spaces, all parking rules and regulations are strictly enforced. Moving violations, such as excessive speed, disobeying traffic control devices etc., on campus are also enforced by the Campus Safety Officers. The Office of the Knox County Sheriff patrols the village of Gambier and enforces state and local ordinances in the village and surrounding area.

Motorcycles and Mopeds

Due to the lack of appropriate storage facilities on campus, students are strongly urged not to bring these types of vehicles to campus. These vehicles will be registered with and permitted by the college should the student opt to bring them to Kenyon. Under no circumstances, may a motorized vehicle be stored in a residential facility.

Prohibited Vehicles

Vehicles which are not “Street Legal” are not permitted at Kenyon College. While our campus is defined as private property, we do not permit this type of vehicle to be operated on campus.

Parking Assignments

The student charge for parking registration is a one time/per academic year fee of $200. This fee is charged regardless of location of assignment. It is applied to the individual’s Student Account.
We have included a map to outline the areas approved for students, areas for faculty and staff and areas set aside for visitor parking. If, at any time, you are unsure—contact the Office of Campus Safety at PBX: 5000. Below is an explanation of the parking assignments and the approved lots for those assigned.

Traffic Crashes

The Department of Campus Safety at Kenyon college will render assistance in the event of a motor vehicle crash. All crashes, regardless of the severity must be reported to the Office of Campus Safety. In most cases a law enforcement report will be required for insurance and other purposes. The Office of Campus Safety will contact the Office of the Knox County Sheriff when the need arises.

Loading and Unloading

When the need arises to load or unload a vehicle, time is permitted for this activity. When moving in at the start of the academic year or moving out at the close of the year, ample time is allocated for this process (usually 15-20 minutes). At other times of the year, if parking for loading or unloading in a restricted area is required the Office of Campus Safety must be notified PRIOR TO THE VEHICLE BEING PARKED IN A RESTRICTED ZONE. At this time permission may be granted for a period not to exceed 15 minutes. Vehicles parked in these areas under any other circumstances may be ticketed. Under no circumstances may vehicles be left unattended in a fire lane. A disabled vehicle in a fire lane will be towed at owners expense immediately.
