CDS G0. Provide the URL of your institution's net price calculator:

Provide 2017-2018 academic year costs of attendance for the following categories that are applicable to your institution.

CDS G1 (fr). Undergraduate full-time tuition, required fees, room and board. *(If costs vary by class, provide Freshman costs.)*

List the typical tuition, required fees, and room and board for a full-time undergraduate student for the FULL 2017-2018 academic year (30 semester hours or 45 quarter hours for institutions that derive annual tuition by multiplying credit hour cost by number of credits). A full academic year refers to the period of time generally extending from September to June; usually equated to two semesters, two trimesters, three quarters, or the period covered by a four-one-four plan. Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan.

Required fees include only charges that all full-time students must pay that are not included in tuition (e.g., registration, health, or activity fees). Do not include optional fees ((e.g., parking, laboratory use). Do not include freshmen orientation fees.

[Required fees should not include application fee.]

- Tuition and fees provided are **firm and final** for Fall 2017-2018.
- Fall 2017-2018 tuition and fee figures provided are **projections.**
- Fall 2017-2018 tuition and fee figures are **not available** at this time.

Estimated date when final figures will be available (MM/DD) 02/17

**CDS H1. Aid Awarded to Enrolled Undergraduates**

Enter total dollar amounts awarded to enrolled full-time and less than full-time degree-seeking undergraduates (using the same cohort reported in CDS question B1, "Total degree-seeking undergraduates") in the following categories. Note: If the data being reported are final figures for the 2015-2016 academic year (see the next item below), use the 2015-2016 academic year’s CDS question B1 cohort. Include aid awarded to international students (i.e., those not qualifying for federal aid). Aid that is non-need-based but that was used to meet need should be reported in the need-based aid column. *(For a suggested order of precedence in assigning categories of aid to cover need, see the entry for "non-need-based scholarship or grant aid" in the definitions section above.)*

H1A. Distribution of Institutional Aid Awarded to Enrolled Undergraduates

Questions H1A a), b), and c) below are being asked for purposes of the AGB/NACUBO Looking Under the Hood online benchmarking tool. No data descriptive of individual institutions elicited from these questions will be made public by AGB, NACUBO, or The College Board. Please address any inquiries or concerns about these questions to NACUBO.Research@nacubo.org.

In providing percentages for questions H1A a), H1A b), and H1A c) below, first determine **Total Undergraduate Institutional Scholarships/Grants Dollars**. This total, used in all three questions, is the sum of the two values populating the need-based and non need-based institutional aid cells in the third line of the Common Data Set (CDS) H1 chart included in this survey. Also, for all three questions, use the academic reporting year selected in CDS H1.

a) Provide percentage of **Total Undergraduate Institutional Scholarships/Grants Dollars** awarded to degree-seeking undergraduates by Race/Ethnicity categories shown below. These categories are based on the CDS B2 chart included in this survey.

b) Provide percentage of **Total Undergraduate Institutional Scholarships/Grants Dollars** awarded to students by income level in the following income categories as defined by the IPEDS Student Financial Aid (SFA) survey. To assign the income category of the student, use the income that was used by your financial aid office to determine the student's Expected Family Contribution (EFC). For dependent students, this will include the parents adjusted gross income and the student's adjusted gross income. For independent students, this will include the student's adjusted gross income. Assign students who did not apply for financial aid to the "Missing/Unknown" category.

c) Below, you'll be asked to provide the percentage of **Total Undergraduate Institutional Scholarships/Grants Dollars** awarded that are Endowed Scholarships. To calculate, add the **Total Undergraduate Institutional Need-Based Endowed Scholarships awarded** (including Non-Need-Based Endowed Scholarships used to meet need) to the **Total Undergraduate Institutional Non-Need-Based Endowed Scholarships** (excluding Non-Need-Based Endowed Scholarships used to meet need). To conclude the percentage calculation, divide the **Total Undergraduate Endowed Scholarship Dollars** just calculated by the **Total Undergraduate Institutional Scholarships/Grants Dollars**.

### H3. Student aid and college costs

Numbers should reflect the cohort to which responses in H1, H2, and H2a refer. Data from these three questions (as well as responses in CDS B1, CDS G1, and CDS H1) will be used by the College Board for its annual reports on aggregate amounts of student aid, tuition discounting, and college costs. These reports do not refer to institutions by name; data are presented in categories such as 4-year private, 4-year public, etc., so that individual institution data cannot be identified.

Indicate academic year for which data are reported for items H1, H2, H2A, H3, and H6: 2016-2017 estimated
Degree-seeking first-time, full-time freshmen

a) Indicate the number of enrolled degree-seeking first-time, full-time freshmen awarded institutional scholarships and grant aid for the same academic year indicated in responses to H1, H2, and H2a. This number should include students receiving athletic aid, but it should not include students receiving only tuition waivers.

b) Indicate the total amount of institutional scholarships and grant aid awarded to degree-seeking first-time, full-time freshmen for the same academic year cited in H1, H2, H2a, and H3a. This dollar amount should represent institutional (endowment, alumni, or other institutional awards) and external funds awarded by the college (excluding athletic aid and tuition waivers). This amount should not include Federal and State grants/scholarships.

I. Instructional Faculty and Class Size  
Report the number of instructional faculty members in each category for Fall 2016. Include faculty who are on your institution’s payroll on the census date your institution uses for IPEDS/AAUP.

CDS 11. The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

| (a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows | Exclude | Include only if they teach one or more non-clinical credit courses |
| (b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status | Exclude | Include if they teach one or more non-clinical credit courses |
| (c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status | Exclude | Include |
| (d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like | Exclude | Exclude |
| (e) faculty on sabbatical or leave with pay | Include | Exclude |
| (f) faculty on leave without pay | Exclude | Exclude |
| (g) replacement faculty for faculty on sabbatical leave or leave with pay | Exclude | Include |

Full-time instructional faculty: faculty employed on a full-time basis for instruction (including those with released time for research).  
Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.  
Minority faculty: includes faculty who designate themselves as Black, non-Hispanic; American Indian or Alaska Native; Asian, Native Hawaiian or other Pacific Islander, or Hispanic.  
Doctorate: includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. Also includes terminal degrees formerly designated as "first professional", including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), and law (JD).  
Terminal master's degree: a master's degree that is considered the highest degree in a field: example, M. Arch (in architecture) and MFA (master of fine arts in art or theater), or theological professions (MDiv, MHL).  

Full-Time Part-Time
CDS I2. Student to Faculty Ratio

Report the fall 2016 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full-time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Do not count undergraduate or graduate student teaching assistants as faculty. If faculty teach graduate students and are not part of a stand-alone graduate school they should be included in the student to faculty ratio calculations and counts, if graduate students are not part of a stand-alone graduate school they should be included in the student to faculty ratio calculations and counts.

Fall 2016 Student to Faculty ratio: 9 to 1 (based on 1694 students and 181 faculty).

CDS I3. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2016 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2016. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

J. Degrees Offered and Awarded

CDS J. Disciplinary areas of DEGREES CONFERRED

Degrees conferred between July 1, 2015 and June 30, 2016

For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.

Please note that the only certificate reported in the Degrees Conferred chart below is the certificate below the Associate degree. Any/all other certificates (i.e., Post-bachelor's certificate, Post-master's certificate) should not be reported in this chart.

Do not select more than one name for each major, and do not select a checkbox if only a course or concentration is offered in that subject.

Click on User Guide in upper right-hand corner of page for detailed List of Majors instructions.

Please note that the only certificate reported in the List of Majors is the certificate below the Associate degree. Any/all other certificates (i.e., Postbachelor's certificate, Post-master's certificate) should not be reported in this chart.
