HOUSING ACCOMMODATION REQUEST FORM

STUDENT NAME: ____________________________________________________________

STUDENT ID#: ___________________________ CELL #: ___________________________

KENYON EMAIL: ____________________________________________________________

CURRENT HOUSING ASSIGNMENT (BUILDING & ROOM): _________________________

CURRENT CLASS YEAR: □ SENIOR
                     □ JUNIOR
                     □ SOPHOMORE
                     □ FIRST-YEAR

TERM(S) REQUESTING: □ FALL (upper-class students submit by March 1)
                     (first-year/transfer students submit by June 15)
                     □ SPRING (submit by November 15)
                     □ SUMMER (submit by April 1)

*Reasonable housing accommodations must be requested and approved for each academic year, with summer considered as part of the previous or subsequent academic year. Kenyon College will accept and consider reasonable housing accommodation requests at any time. However, completed requests must be received by the Office of Student Accessibility and Support Services (SASS) by the above dates in order to ensure that approved requests can be accommodated for the specified term and/or remainder of the academic year.

TYPE(S) REQUESTING: □ HOUSING ACCOMMODATION, NON-ESA
                     □ EMOTIONAL SUPPORT ANIMAL (ESA)

*Mark all that apply

*Please see Kenyon College’s Housing Accommodation Policy and Emotional Support Animal Policy for additional information

Please submit answers to the following questions for all housing accommodation requests on a separate sheet:

1) As defined by the ADA, for what disability have you been diagnosed and are you seeking a housing accommodation? What is the nature and severity of this impairment?

2) How long is this impairment expected to last? Is it characterized as permanent or long term? Please explain.

3) Describe how your impairment substantially limits one or more major life activities.

4) Describe how your requested housing accommodation is necessary for you to use and enjoy your living space.

5) What symptoms will be reduced by having this housing accommodation?
