

# 2022: Best Colleges - Main Survey

## Instructions

### BEST COLLEGES

#### Main Statistical Data Collection

Welcome. *U.S. News & World Report* is now collecting data for the 2022 edition of Best Colleges. Thank you for participating. The information you report will connect applicants to your institution through U.S. News's interactive website and print guidebook.

**Survey Deadline:** June 1st, 2021

There are three steps in the submission process:

**Step 1: Data** - Complete the questionnaire to the fullest extent your data and history allow. If you are not able to answer a question, leave it blank. If you have questions or concerns about how best to respond to a specific item, click the "Help" button on the top right-hand side of the screen to access your U.S. News data collector. Aggregate/disaggregate data across campuses using a consistent standard throughout U.S. News's main, finance and financial aid surveys. For example, if reporting data exclusive to a branch campus for this main survey, data reported in the finance survey should also pertain to this branch campus. If can be reported consistently across surveys, respondents may exclude data pertaining primarily to standalone colleges and campuses dedicated to distance education and/or degree completion that operate on a separate track (e.g. separate admissions, resources) from what is accessible to full-time, campus-based students. This survey and rankings are designed for regionally accredited institutions that deliver some face-to-face instruction to students and will enroll full-time, first-year new entrants to four year bachelor's degree-granting programs. If any of these criteria do not apply *at all* to your institution, please email [official@usnews.com](mailto:official@usnews.com) (<mailto:rmorse@usnews.com>), with brief explanation. In late summer, eligible institutions will be able to report data specific to distance education programs oriented toward degree completion/adult learners as part of U.S. News's separately produced [Best Online Bachelor's Programs](https://www.usnews.com/education/online-education/bachelors) (<https://www.usnews.com/education/online-education/bachelors>), rankings.

**Step 2: Assessment** - After entering your data, navigate to the 'Main Survey Assessment' section. The assessment runs a statistical comparison between your most recent data and the data submitted last year and will algorithmically identify potential errors such as very large changes between the two years of data that may need to be confirmed or resolved. Note that U.S. News only publishes individual cohort-level data on schools' most recently reported cohorts; however, historic data are used in multiple ranking factors. For more information, please go to the main assessment section.

**Step 3: Verification** – After reviewing the assessment and fixing any remaining errors, navigate to the section titled “Verification”. This is where the survey submission takes place. Please carefully review your survey data one last time. When you are ready, you **must** select the check box, fill out all the identification information (which must include signoff from the Dean or equivalent official who has signed off on the data) and hit the red “Submit Survey” button. **Failure to check the verification box and have the Dean or equivalent official fill out their information may be noted when the data are published and/or may result in the school not being ranked.**

### Important Icons

\* The red asterisk located next to a few question numbers indicated that the question is mandatory. If the question is not answered you will be unable to submit the survey. All assessment flags are mandatory and must be addressed.

✗ The red x indicates that you have not filled out the question correctly. There will be a line of text that accompanies the icon letting you know what is the exact problem. Once the issue is corrected the x disappears. All failed validations must be fixed before the survey can be submitted.

🛡 The gold shield indicates that the question has been used in the most recent U.S. News Best Colleges rankings calculations or is under consideration for use in the upcoming edition. For this year's data collection no new questions have a gold shield.

❓ The question mark indicates a tip on how to answer that particular question.

☑ The checkbox indicates the assessment section of the survey.

⬆ The upward arrow indicates the verification section of the survey. This is where the submission button is located.

### Entering Data

To navigate among fields you may either click on the field to which you wish to move or press the Tab key until you reach it. To move between individual pages of the survey click on the "Next" or "Previous" links at the bottom of the page. You may also click on the section links listed in the index on the right-hand side of the screen and go to any page in the survey.

### Saving Data

Saving data happens automatically when a few actions are taken. One, you select the ‘Next’ button at the bottom of the page. Two, you select and navigate to another section in the question index. Three, you hit the ‘Save’ button at the bottom of a page. If you plan on leaving the survey before completion, please hit the save button before exiting the survey.

### Getting Help

If you have questions or encounter problems while you are completing the survey, click the "Help" button on the top right-hand side of the screen. This will direct you to the data collector assigned to your institution.

### The Common Data Set

U.S. News uses questions from the Common Data Set (CDS). The CDS initiative is a collaborative effort among data providers in the higher education community and publishers as represented by the College Board, *Thomson Peterson's*, and *U.S. News & World Report*. We hope that this effort to standardize data definitions makes it easier to complete our questionnaire.

For easy reference, all CDS items are noted throughout the Main and Financial Aid surveys. The CDS does not cover any of the questions on the Finance survey. Please note that some of the questions used in the Best Colleges rankings are unique to the U.S. News survey and are not included on the CDS. After you have

submitted your CDS, you will have an opportunity to submit information for these questions.

***All CDS submissions must be received by May 19th 2021 in order to allow enough time for data entry and processing in-house. Please contact your data collector for more information.***

**Cross-referencing submissions:** U.S. News in its discretion will conduct cross-referencing of data, when possible, from what information schools have (historically) submitted in their IPEDS Institutional Characteristics surveys among other sources. However, data on the most recent cohorts requested in U.S. News surveys are typically not yet widely accessible via third party sources. Regardless, schools are ultimately responsible for the accuracy of the data that they submit. If you need more details on how the cross-checking or missing data fill-ins will work, contact [official@usnews.com](mailto:official@usnews.com) (<mailto:rmorese@usnews.com>).

### **Significantly Modified Questions in Main Survey**

Majors and minors offered (q. 29-31) reflect the 2020 NCES updates of CIP Codes. Because these include codes that are new, removed and reclassified from 2010, last year's responses did not rollover and respondents must complete these questions from scratch. In question 31, schools are encouraged to report the 10 most popular majors -- up from 5 a year ago.

Question 206 pertaining to the class size ranking indicator instructs respondents this year to include classes that have been moved online in response to the COVID-19 pandemic. This added guidance was made in accordance with [The Common Data Set Initiative \(https://www.commondataset.org/\)](https://www.commondataset.org/).

For schools with 3 or more public relations contacts, survey respondents this year may provide as many as 5 PR contacts -- up from 2 last year.

### **Removed questions from Main Survey**

U.S. News is no longer collecting data on SAT writing and SAT subject tests. Also removed are a series of questions on graduate outcomes for part-time students and a dozen other non-rankings questions that were dated or received low response rates. This year's survey is similar in length to last year's survey altogether.

If you have questions or feedback about the Best Colleges rankings methodologies or other education rankings and publications, contact [official@usnews.com](mailto:official@usnews.com) (<mailto:r Morse@usnews.com>). Note that out of fairness, U.S. News does not typically inform schools upon individual request about methodology revisions to the upcoming rankings.

U.S. News will likely reveal the 2022 Best Colleges release date, and possibly other updates, a few weeks before publication on the [Morse Code blog](https://www.usnews.com/education/blogs/college-rankings-blog) (<https://www.usnews.com/education/blogs/college-rankings-blog>). The 2022 rankings and data may be published online and in print around late summer/early fall, but no date has been finalized.

On behalf of the education data team, reporters and editors here at *U.S. News* and our many appreciative users, **thank you for your time and effort!**

### 35.) Undergraduate Academic Programs of Study

Please check each academic program offered and report the percent of 2020 graduating seniors who have participated in these programs during their undergraduate years.

**First-year Experiences:** Curricular and/or co-curricular programs beyond orientation that bring together faculty and/or staff and groups of first-year students to: address the development of knowledge, skills, and/or perspectives for academic and college success; promote meaningful student-faculty interaction (one-on-one or in small groups).

**Learning Communities:** Groups of students that take part as a cohort in intentional, institutionally-designed curricula, most often consisting of at least two linked courses, that are designed to address academic and social development inside and outside the classroom through planned interactions among the cohort and with the faculty.

**Senior Capstone of Culminating Academic Experiences:** Integrative, credit-bearing experiences, offered in the last stages of a student's program of studies, which aim to have the student synthesize the academic experience, often in the creation of a product that demonstrates the ability to frame and resolve an open-ended question, or of a performance or an exhibit.

**Undergraduate Research:** Self-directed academic work by an individual student or by small groups of students that deals with an open-ended issue with the expectation of a substantial scholarly or creative product that can be formally presented on or off campus. Such work is undertaken with a faculty mentor for at least one

academic term or intensive summer, and students understand their roles as researchers/creators and act in those roles.

**Service Learning:** An academically-based instructional strategy, credit-bearing or required for a degree, that provides students with both meaningful service opportunities in interactive partnership with the community and academic structures for analysis and reflection on their contributions and learning.

**Writing in the Disciplines:** Institutional commitment, manifest through an organized approach, to significant student participation in writing embedded in courses at all levels and in all divisions of the curriculum. To accomplish significant writing over time and at increasing levels of sophistication, it often includes writing experiences in many different disciplines, varied forms of writing for varied audiences, and iterative writing processes.

Faculty: Salaries

Please report the salaries of full-time instructional faculty members in for the 2020-2021 academic year. The grid conforms to Form 2 from the American Association of University Professor (AAUP) data collection. Include the unduplicated combined total of "Primarily Instructional" and "Instructional/Research/Public Service" aggregating all faculty across gender and tenure/non-tenured status. Exclude faculty who are clinical or basic science faculty, located in schools of medicine and/or military faculty.

**Primarily Instructional** refers to an occupational category used to classify persons whose specific assignments customarily are made for the purpose of providing instruction or teaching. Regardless of title, academic rank, or tenure status, these employees formally spend the majority of their time providing instruction or teaching.

**Instructional/Research/Public Service** refers to an occupational category used to classify persons for whom it is not possible to differentiate between instruction or teaching, research, and public service because each of these functions is an integral component of his/her regular assignment. Regardless of title, academic rank, or tenure status, these employees spend the majority of their time providing instruction, research, and/or public service.

These definitions of instructional faculty are used by AAUP (<https://research.aaup.org/instructions#form3>) and should be reported to U.S. News the same way to the fullest extent applicable.

The table below provides detail on inclusions and exclusions:

<i>Criteria</i>	<i>Full-time Faculty</i>
Clinical*, Medical School Faculty, and/or Military Faculty	Exclude
Faculty on Sabbatical or Leave <u>with</u> Pay	Include
Faculty on Sabbatical or Leave <u>without</u> Pay	Exclude
Replacement Faculty (for faculty on sabbatical leave or leave with pay)	Exclude
Part-Time Tenured/Tenure-Track Faculty	Exclude
Courtesy Faculty Appointments and Faculty who have a Bookkeeping Value	Exclude
Contributed Service Personnel: Administrative officers with titles such as Provost, Dean, Librarian, Registrar, Coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status and other administrators/staff clinical credit courses.	Exclude
Research Faculty (faculty who have never had a contractual instructional role, such as Research Assistant Professors)	Exclude

Key definitions:

**Full-time Instructional Faculty:** include full-time faculty members for the entire institution, excluding clinical or basic science faculty located in schools of medicine and/or military faculty. For the purpose of this survey, include all members of the "Primarily Instructional: and "Instructional/Research Public Service" staff who are employed full-time and whose regular assignments has an instruction component (including released time for research), regardless of whether they are formally designated "faculty".

**Faculty Salary Outlays (Total Contracted Salaries):** Report the projected expenditure for full-time contracted salaries excluding extra loads, summer teaching, stipends, or other forms of remuneration. Department or program heads with faculty rank and no other administrative title should be reported at their instructional salary (i.e., excluding administrative stipends).

**Length of contract:** Data for those whose base contract requires 9- or 10-months of instruction (e.g., two semesters, three quarters, or two trimesters) are to be reported as 9 month contract length. Data for those on 11- or 12-month contracts get reported as 11- or 12-month contracts length.

# Class Sections

206.)

Undergraduate Class Size: In the table below, please use the following definitions to report information about the size of class sections offered in the Fall 2020 term. Fall 2019 data provided for your reference.

- Please include classes that have been moved online in response to the COVID-19 pandemic.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Undergraduate Alumni Giving: Please enter information on undergraduate alumni giving, as defined below. As noted, *exclude* former students who earned only graduate degrees and undergraduates who didn't graduate from your institution. Additionally, exclude all student giving (e.g., senior class gift) unless you count the entire senior student body in the alumni of record total.

Please follow the standards set by the Council for Aid to Education (CAE) and the Council for Advancement and Support of Education (CASE), and used for reporting to CAE for the Voluntary Support of Education Survey when answering these questions. If you do not break down undergraduate-only giving for the CAE survey, please do so for this report.

For individual donations from households with multiple (e.g. two) alumni, report each as separate donors if possible.

256.) Does your institution currently offer any online bachelor's degree programs, including but not limited to degree completion programs?

- An online bachelor's degree program is a program for which the vast majority of required coursework for program completion is able to be completed via distance education courses that incorporate Internet-based learning technologies. Distance education courses are courses that deliver instruction to students who are separated from the instructor, and support regular and substantive interaction between the students and the instructor synchronously or asynchronously. Note that the requirements for coming to campus for orientation, testing, academic support services and other sporadic requirements do not exclude a program from being classified as an online bachelor's degree program.

### Programs/Services for Students with Learning Disabilities offered during the 2020-2021 academic year

284.) Check one type that describes your school's LD Program:

#### **Structured/Proactive/Comprehensive program:**

Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios. Compulsory student attendance. An advisor/advocate is made available to students.

#### **Self-directed/decentralized services:**

There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.

#### **Compliance:**

Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.
