

2026 Best Colleges - Main Survey

Please Read the Instructions

2026 Main Statistical Survey Data Collection

Welcome. *U.S. News & World Report* is now collecting data for the 2026 edition of Best Colleges. The data your institution reports will help connect prospective students with their best fit schools.

Students and parents benefit with access to more data, but submitting this survey benefits your institution too. It ensures your baccalaureate offerings will be assessed on their most recent and relevant figures. It provides information about distinct characteristics and attributes that will appear in your usnews.com profile and makes your school more discoverable using U.S. News's personalized search tools (<https://premium.usnews.com/best-colleges/myfit>). It is required so that top officials at your school can have their peer assessment ratings of other schools included in the rankings calculations. Finally, only schools that submit the main, finance, and financial aid surveys will receive exclusive access to preliminary rankings under embargo approximately two weeks before publication.

Survey Deadline: June 13th, 2025

U.S. News will not be granting extensions beyond the listed date. Please complete the survey, or answer as many questions as possible, and submit by the deadline. There will be later opportunities, described below, to report limited additional data, but schools must submit the surveys so they can be closed and analysts at U.S. News can proceed with follow-up programming and quality control steps.

Around July, U.S. News will email the survey respondents at many schools asking them to confirm or update data that U.S. News analysts flagged as needing review. During this time period, schools may email U.S. News with any corrections to inaccurately reported data or to supply a very limited amount of missing data. Many schools will not be contacted during this time.

Around August, U.S. News will email schools in rank-eligible categories the statistical survey-based ranking factors with the data they submitted. Schools will be given approximately two weeks to reopen their surveys, if determined necessary, and make final changes to their main, finance, and financial aid surveys before resubmitting.

Eligibility

All recipients of this survey, according to U.S. News's research, are regionally accredited U.S. institutions that award bachelor's degrees, enroll first-year undergraduates, administer some in-person education, and are planning to accept bachelor's-seeking applications for a fall 2026 (or equivalent) term. If any of these no longer apply to your institution, please email official@usnews.com (<mailto:official@usnews.com>).

Otherwise, every recipient will have a U.S. News Best Colleges profile that incorporates data collected in this survey. But not all schools receiving a profile are rank-eligible. Only schools that meet the following criteria, unchanged from last year, will be rank-eligible for the overall rankings:

- Is in a Basic 2021 Carnegie Classification mapping to one of U.S. News's [ranking categories](https://www.usnews.com/education/best-colleges/articles/ranking-category-definitions) (<https://www.usnews.com/education/best-colleges/articles/ranking-category-definitions>).
- Reported a six-year bachelor's degree graduation rate of full-time, first-year bachelor's degree-seeking students to U.S. News and/or IPEDS for at least one entering class between fall 2015-fall 2018
- Reported at least 100 undergraduates enrolled for fall 2024
- Reported FY2023 finance data to IPEDS, except in special circumstances involving recent reorganization.

Schools ineligible for the overall rankings may still be eligible for discipline-specific rankings and to have their survey data included in other evaluative lists and editorial content.

Reminders

During data collection, U.S. News by default sends reminder emails to all schools that have not submitted surveys.

Schools should email usnews-data-collection@usnews.com (<mailto:usnews-data-collection@usnews.com>) if they wish to opt-out of the survey and not receive further communication for the rest of this college data collection cycle.

Later this year institutions that specialize in online education or that do not enroll first-year students may be able to report on their degree completion programs as part of the [Best Online Bachelor's Programs](https://www.usnews.com/education/online-education/bachelors) (<https://www.usnews.com/education/online-education/bachelors>) rankings.

There are three steps in the U.S. News data collection process:

Step 1: Data - Complete the questionnaire to the fullest extent your data and history allow. If you are not able to answer a question, leave it blank. Prioritize completing questions flagged as potentially used in the upcoming rankings. Very few questions are mandatory to submit this survey and the rankings formula will not factor the extent of participation into the scoring. If you have questions or concerns about how best to respond to a specific item, click the "Help" button on the top right-hand side of the screen to contact a U.S. News survey research associate.

Report statistical data throughout U.S. News's main, finance, and financial aid surveys that break out your institution's campuses in alignment with how they are reported to the U.S. Department of Education. This means questions that ask for information identical to IPEDS must be reported to U.S. News as reported to IPEDS. This has been instructed for several years and supersedes any communications U.S. News had with schools in the past.

All rankings questions and the majority of remaining questions in these surveys replicate definitions from the Common Data Set/AAUP and/or IPEDS.

Once again, the upcoming rankings will only use data reported for the first time in this survey; combined with U.S. News peer assessment survey data and third party data. This means that rankings data your institution reported to U.S. News in previous years -- some of which display in this survey for reference -- will not be used in any future rankings calculations.

Step 2: Assessment - After entering your data, navigate to the 'Assessment' section. The assessment runs a statistical comparison between your most recent data and the data submitted last year and will algorithmically identify potential errors such as very large changes between the two years of data that may need to be confirmed or resolved. If large changes are flagged, please explain the change in the text box provided. In the case of a large change, the survey will not submit without providing an explanation. Note that U.S. News only publishes individual cohort-level data on schools' most recently reported cohorts on our publicly accessible website; however, historic data are published in U.S. News's subscription data product, Academic Insights, described below.

Step 3: Verification/Submission – After reviewing the assessment and fixing any remaining errors, navigate to the section titled "Verification". This is where the survey submission takes place. Please carefully review your survey data one last time. When you are ready, you **must** select the check box, fill out all the identification information (which must

include the Dean or equivalent official who has verified the data) and hit the red “Submit Survey” button. **Failure to check the verification box and have the President, Provost, Dean or other equivalent senior administrator verify the data and fill out their information may be noted when the data are published and/or may result in the school not being ranked.** Once the "Submit Survey" button is selected, your submission is final and will be published.

Important Icons

- * The red asterisk located next to a few question numbers indicated that the question is mandatory. If the question is not answered you will be unable to submit the survey. All assessment flags are mandatory and must be addressed.
- ✖ The red x indicates that you have not filled out the question correctly. There will be a line of text that accompanies the icon letting you know what is the exact problem. Once the issue is corrected the x will disappear. All failed validations must be fixed before the survey can be submitted.
- 🛡 The gold shield indicates that the question has been used in past U.S. News Best Colleges rankings calculations or is under consideration for future use.
- 💡 The question mark indicates a tip on how to answer that particular question.
- ☑ The checkbox indicates the assessment section of the survey.
- ⬆ The upward arrow indicates the verification section of the survey. This is where the submission button is located.

Entering Data

To navigate among fields you may either click on the field to which you wish to move or press the Tab key until you reach it. To move between individual pages of the survey click on the "Next" or "Previous" links at the bottom of the page. You may also click on the section links listed in the index on the right-hand side of the screen and go to any page in the survey.

Saving Data

Saving data happens automatically when a few actions are taken. One, you select the ‘Next’ button at the bottom of the page. Two, you select and navigate to another section in the question index. Three, you hit the ‘Save’ button at the bottom of a page. If you plan on leaving the survey before completion, please hit the save button before exiting the survey.

Getting Help

If you have questions or encounter problems while you are completing the survey, click the "Help" button on the top right-hand side of the screen to contact a U.S. News survey research associate. We will endeavor to respond to your question within three business days.

The Common Data Set

As stated earlier, U.S. News uses questions from the Common Data Set (CDS). The CDS initiative is a collaborative effort among data providers in the higher education community and publishers as represented by the College Board, Thomson Peterson's, and U.S. News & World Report. We hope that this effort to standardize data definitions makes it easier to complete our questionnaire.

For easy reference, all CDS items are noted throughout the main and financial aid surveys. Please note that some of the questions used in the Best Colleges rankings are unique to the U.S. News survey and are not included on the CDS. After you have submitted your CDS, you will have an opportunity to submit information for these questions.

All CDS submissions must be emailed to usnews-data-collection@usnews.com (<mailto:usnews-data-collection@usnews.com>) in a Fillable PDF format, accessible [here](https://commondataset.org/) (<https://commondataset.org/>). Other formats will not be accepted. Schools were given an opportunity during the contact verification period to provide their CDS in time to

have the data pre-populated when first receiving the main, finance, and financial aid surveys. Schools emailing a completed CDS in Fillable PDF format by **May 16** will have their data populated in the both surveys by no later than **May 30**.

U.S. News is requiring that all schools report ACT/SAT data directly in this main survey because of differences between this survey and CDS.

Questions potentially used in the Best Colleges rankings:

- Programs offered: 35, 36,
- Enrollment: 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63
- ACT/SAT: 139, 140, 141, 142, 144, 145
- Veterans: 169, 170, 171, 172, 173
- Instructional Faculty: 178, 180
- Faculty Salaries: 183
- Graduation and Retention: 186, 194, 195

Data from the questions will be combined with the average ratings received on U.S. News's peer assessment survey, data sourced from IPEDS and The College Scorecard, and bibliometric data sourced from Elsevier (national universities only) to determine each school's overall rank.

U.S. News has also published other rankings and lists using data from the main survey that may use data for the following:

Programs to Look For

- Undergraduate Academic Programs of Study: 27-29

Best Colleges for Veterans

- Enrollment and financial aid policies: 171-174

For a full list of additional rankings and lists -- most of which incorporate data from this main survey, visit [here](https://www.usnews.com/best-colleges/rankings) (<https://www.usnews.com/best-colleges/rankings>).

New Questions

Along with deleted questions no longer in use, there are also a small number of entirely new questions based on input from staff at U.S. News based on their research on what prospective students were searching for when they visited the website. However, there are no new questions in the main, finance, and financial aid survey that this fall will be applied to the overall rankings for the first time.

Some definitional and response option changes adhered to the Common Data Set Initiative. See [here](https://commondataset.org/) (<https://commondataset.org/>) for a summary of changes, some of which applied to questions in the main, finance, and financial aid surveys.

More on the Best Colleges rankings

More details on the U.S. News Best Colleges rankings can be found [here](https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-rankings) (<https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-rankings>).

A note on ranking categories

This fall U.S. News will again be using the Basic 2021 Classifications via the [Carnegie Classification of Institutions of Higher Education](https://carnegieclassifications.acenet.edu/) (<https://carnegieclassifications.acenet.edu/>) for grouping schools in categories like National Universities and Regional Colleges. This was done because U.S. News determined its survey universes ahead of the full

2025 update. U.S. News is studying the 2025 classifications but has not yet made any decisions about the process for constructing next year's U.S. News ranking categories.

And Finally

If you have questions or feedback about the Best Colleges rankings methodologies or other education rankings and publications, contact official@usnews.com (<mailto:rmorse@usnews.com>). Note that U.S. News typically reveals methodology changes through its embargo process and/or website, and not by individual school request. Historical rankings information and millions of data points not published on usnews.com are available in U.S. News’s subscription data product, Academic Insights. Please contact U.S. News's Academic Insights team at AcademicInsights@usnews.com (<mailto:AcademicInsights@usnews.com>) for more information about subscribing to U.S. News's Academic Insights interactive portal designed specifically for institutional researchers and policy makers. The next edition of the rankings will be published this fall. Ranked schools that completed the main, finance and financial aid surveys will receive free early access to a preliminary version of the rankings through the Academic Insights platform.

On behalf of the data team and staff here at U.S. News and our many appreciative users, thank you for your time and effort!

Please check each academic program offered and report the percent of 2024 graduating seniors who have participated in these programs during their undergraduate years. **Which programs are checked as being offered may be used to verify the Programs to Look For rankings.** Percentages will not be used in the rankings.

First-year Experiences: Curricular and/or co-curricular programs beyond orientation that bring together faculty and/or staff and groups of first-year students to: address the development of knowledge, skills, and/or perspectives for academic and college success; promote meaningful student-faculty interaction (one-on-one or in small groups).

Learning Communities: Groups of students that take part as a cohort in intentional, institutionally-designed curricula, most often consisting of at least two linked courses, that are designed to address academic and social development inside and outside the classroom through planned interactions among the cohort and with the faculty.

Senior Capstone of Culminating Academic Experiences: Integrative, credit-bearing experiences, offered in the last stages of a student's program of studies, which aim to have the student synthesize the academic experience, often in the creation of a product that demonstrates the ability to frame and resolve an open-ended question, or of a performance or an exhibit.

Undergraduate Research: Self-directed academic work by an individual student or by small groups of students that deals with an open-ended issue with the expectation of a substantial scholarly or creative product that can be formally presented on or off campus. Such work is undertaken with a faculty mentor for at least one

academic term or intensive summer, and students understand their roles as researchers/creators and act in those roles.

Service Learning: An academically-based instructional strategy, credit-bearing or required for a degree, that provides students with both meaningful service opportunities in interactive partnership with the community and academic structures for analysis and reflection on their contributions and learning.

Study Abroad: Substantial academic, credit-bearing study, the equivalent of at least one full course, under faculty supervision, conducted outside the United States but approved by the home institution, which includes substantive interaction between the student and the host culture and/or environment.

Internships, Cooperative Education, or Practica: The practical application of learning from a specific academic program in a pre-planned out-of-class situation equivalent in time to at least 1 academic credit, paid or unpaid, requiring structured reflection and/or an end product, supervised and evaluated by faculty, field person, or cooperating professional directing the learning activity.

Writing in the Disciplines: Institutional commitment, manifest through an organized approach, to significant student participation in writing embedded in courses at all levels and in all divisions of the curriculum. To accomplish significant writing over time and at increasing levels of sophistication, it often includes writing experiences in many different disciplines, varied forms of writing for varied audiences, and iterative writing processes.

2024 Enrollment

Institutional Enrollment: Provide numbers of students for each of the following categories as of the institution's official fall reporting date or as of October 13, 2024. Degree-seeking students are those enrolled in courses for credit who are recognized by the institution as seeking a degree or recognized postsecondary credential. Full time undergraduates are those enrolled for 12 or more semester credits, 12 or more quarter credits, or 24 or more clock hours a week each term. Please report students formerly designated as "first professional" in the graduate cells. The last two years' enrollment grid are included.

In cases where gender information is not provided, please either do one of the following: report in the 'Other' column or distribute evenly as possible across the two-binary categories. Do not undercount students.

49.)

2024 Full-time Enrollment:

For ranking purposes, complete all cells -- not just totals -- in this question, the part-time enrollment question and historic enrollment questions.

If your institution enrolls full-time and part-time students, complete both grids (or none); do not complete only one.

If your institution would like to report two genders, please divide "other" equally between them.

Dual Enrollment: *If your institution enrolls high school students in college courses for credit either **within a dual enrollment program** or **outside of a dual enrollment program**, you may report the unduplicated count as part of the full- or part-time "All other undergraduates" section. **

Ethnicity Enrollment and Degrees Awarded

Enrollment by Racial & Ethnic Category: Provide numbers of undergraduates for each of the following categories as of the institution's official fall reporting date or as of October 15, 2024. Include international students only in the category "Non-residents." Report as your institution reports to IPEDS: persons who are Hispanic should be reported only on the Hispanic line, not under any race, and persons who are non-Hispanic multi-racial should be reported only under "Two or more races."

Notes:

- Degree seeking undergraduates (2nd column) should include the degree seeking, first-time, first year students in column one.
- If there are no students in a category, enter zero.
- Dual Enrollment: If your institution enrolls high school students in college courses for credit either **within a dual enrollment program** or **outside of a dual enrollment program**, you may report the unduplicated count as part of the non-degree-seeking students included in the "Total Undergraduates (both degree & non-degree-seeking)" section.

Average age of students (full- and part-time)	18	20

67.)
 Report the percentage of bachelor's degree-seeking undergraduates enrolled in your institution in Fall 2024 who were first-generation students.
 Use the Common Application definition (<https://appsupport.commonapp.org/applicantsupport/s/article/First-Generation>), for defining first-generation students. If no parent has a bachelor's degree, or higher, the applicant is identified as a first-generation college student. If there is no information provided for degree level for either parent -- for example, when an applicant left the parental education question blank -- the applicant is assumed to be first-generation (this is the same approach taken by the Common App and NSLDS). Schools that do not use the Common App or use other applications in addition to the Common App may use the equivalent first-generation methodology. Respondents unable to adhere to the above definition for the requested time period should leave this question blank.

ACT and SAT

Most of this section only applies to schools that use SAT/ACT scores in at least some admissions decisions. Schools that do not use these scores, such as test-blind schools, should report not using them in questions 131 and 132, and leave the remaining questions blank.

Throughout this section report only on bachelor's-degree seeking new entrants. This means that **institutions with associate's-degree seeking new entrants should *not* be including those students** when reporting the percent that submitted SAT/ACT scores, nor the scores themselves.

When reporting the percents that submitted SAT/ACT scores and the scores themselves, **include all exams *that were used in admissions decisions***. Do not include any additional submissions and scores on record that were not used in admissions decisions.

CDS submissions will not be used to populate this section because of the different criteria. Survey respondents need to complete this section directly because of different definitions used between U.S. News and CDS.

U.S. News uses the median (50th percentile) scores for overall rankings calculations.

SAT/ACT entering class counts and scores are to be reported for fall 2024.

Questions on your institution's use of SAT/ACT in the admissions process are geared to prospective students who will mostly be starting school in fall 2026. They are not used in the ranking calculations but are published in school profiles, and may be incorporated in search tools and editorial content.

131.) Does your institution make use of ACT or SAT scores in admission decisions for first-time, first-year, degree-seeking applicants for fall 2026?

133.) If SAT and/or ACT exams are not required for all applicants, which of the following best describes your institutions admissions policy for fall 2026.:

- Test flexible -- Applicants are required to submit standardized test scores, but may submit alternative exam scores (e.g. AP exams, IB exams) instead of ACT or SAT scores.
- Test optional -- Applicants are not required to submit standardized test scores, but standardized test scores are considered in admissions decisions. This includes schools that may require SAT/ACT scores for applicants in limited circumstances.
- Test optional only for international applicants -- Only international applicants may apply without submitting SAT or ACT exams.
- Test blind -- Standardized test scores are never considered in admissions decisions.
- Test blind with exceptions -- Standardized test scores by default are not considered in admissions decisions, but may be considered under qualifying circumstances (e.g. applicants with GPAs below a threshold).

136.)

If your institution makes use of ACT and SAT in admissions decisions, which of the following best describes its policy toward score choice for applicants submitting test scores:

- Submission of all exam scores is required. Applicants must submit all their ACT and SAT scores as part of their applications.
- Submission of all exam scores is recommended. Although submission of all ACT and SAT scores is not required, your institution recommends applicants submit all ACT and SAT scores.
- Submissions of all exam scores are not required nor recommended. Applicants may submit whichever ACT and/or SAT scores they elect and your institution does not encourage otherwise.

- 138.) Test Score Submission: In the following questions, please provide the percent and number of first-time, first-year students enrolled in fall 2024 who submitted national standardized (SAT/ACT) test scores in the admissions decision:
- Adhere to the guidelines reported for the latest IPEDS winter survey, but limited to bachelor's-seeking students. Adhering to IPEDS means including *all* new entrants' SAT/ACT scores reviewed by your institution before admissions decisions were made.
 - All new entrants equates to all *enrolled*, first-time, first-year degree-seeking students -- full, or part-time-- who submitted test scores for use in the admissions decision, including students who began studies during summer, international students / non-residents, and students admitted under special arrangements.
 - Do not include partial test scores (e.g., SAT mathematics scores but not SAT reading for a category of students) or combine other standardized test results (such as TOEFL) in these items.
 - Do not convert SAT scores to ACT scores and vice versa. (U.S. News may convert your reported SAT and ACT scores to 0-100 percentile distributions and weight by proportions submitting each exam for use in ranking calculations.)
 - Do not include SAT/ACT score information on fewer than 5 takers for that exam.
 - If a student submitted multiple sets of scores for a single test, report this information according to how you use the data as reported in the preceding questions. For example:
 - If you consider the highest scores from either submission, use the highest combination of scores (e.g., reading from one submission, math from the other).
 - If you average the scores, use the average to report the scores.

(e) faculty on sabbatical or leave with pay	Include	Exclude
(f) faculty on leave without pay	Exclude	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as Black or African American; American Indian or Alaska Native; Asian; Native Hawaiian or other Pacific Islander; Two or more races; or Hispanic.

Doctorate: includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Doctor of Philosophy in any field such as arts, services, education, engineering, business, or public administration. Also includes terminal degrees formerly designated as "first-professional," including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), law (JD).

180.) Report the Fall 2024 ratio of full-time equivalent undergraduate and graduate students (full-time plus 1/3 part time) to full-time equivalent instructional faculty of undergraduate and graduate students (full-time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate-level students. Do not count undergraduate or graduate student teaching assistants as faculty.

U.S. News is collecting full-time and part-time instructional staff counts by gender and ethnicity. Please use CDS guidelines for including and excluding faculty at the top of this section, aligned with cohorts reported at the top of this section.

For each row, report the pre-summed counts of all fall 2024 total faculty who were among the following: tenured, tenure-track, not on tenure-track multi-year contract, not on tenure-track annual contract, less than annual contract, and indefinite duration contract. Exclude full-time instructional staff without faculty status. You must complete all rows pertaining to ethnicity for men and women, both full-time and part-time. Faculty: Salaries

Report cumulative salaries by rank of full-time instructional faculty members for Fall 2024. Enter what your institution reported in Form 2 of the AAUP Faculty Compensation Survey (<https://research.aaup.org/instructions#form2>) for the corresponding fields assuming it was complete and accurate. Any of the data requested below that was not reported to AAUP must still be reported to U.S. News for fair comparisons to schools that submitted complete grids. Schools that do not report any data to AAUP are still instructed to follow the AAUP guidance below. Schools that cannot do this should leave the section blank and will be assessed on data they reported to IPEDS pertaining to the earlier year.

Guidance:

Full-time instructional faculty are those employed on a full-time basis for instruction (including those with released time for research).

Whom to Include:

- Full-time faculty members who are on the payroll of the institution as of November 1, 2024 and working 9-, 10-, 11-, or 12-month contracts, including those paid through third-party payroll management companies.
- Full-time “Primarily Instructional” and “Instructional/Research Public Service” faculty members whose regular assignment has an instruction component (including release time for research), regardless of whether they are formally designated as “faculty” and irrespective of tenure status. (See the [FAQ \(https://research.aaup.org/faq#form2\)](https://research.aaup.org/faq#form2) for further details.)
- Faculty who are working on a reduced load (e.g., 0.75 FTE) but who are still considered full-time in the institution's HR/payroll system. In this case, report their projected annual salary expenditures by determining what their base salary would be for a full load (e.g., salary / FTE).
- Full-time faculty members who are on sabbatical or leave with pay. In this case, report their regular salaries even though they may be receiving reduced salaries while on sabbatical or leave.
- Replacement faculty for those on sabbatical or leave without pay, but only if the replacement faculty are employed full-time. If the replacement faculty are employed part-time on a per-course-section basis, they should be reported on Form 6.

Whom to Exclude

- Faculty who are not employed on a full-time basis irrespective of tenure status.
- Faculty who are working less-than-9-month contracts.
- Clinical or basic science faculty, medical faculty, and/or military faculty paid on a different scale from civilian employees. (See the [FAQ \(https://research.aaup.org/faq#form2\)](https://research.aaup.org/faq#form2) for further details.)
- Extreme outliers. Exclude faculty whose base salary falls well outside the norm for a particular rank. (See the [FAQ \(https://research.aaup.org/faq#form2\)](https://research.aaup.org/faq#form2) for further details.)
- Faculty on sabbatical or leave without pay.
- Replacement faculty for those on sabbatical or leave with pay.
- Research faculty and other faculty who do not have a contractual instructional role, such as Research Assistant or Associate, Research Professor, Post-Doctoral Research Fellow, or Research Fellow.
- Faculty on courtesy appointments and other faculty members whose services are valued by bookkeeping entries rather than by full cash transactions, unless their salaries are determined by the same principles as those who do not donate their services.
- Contributed service personnel, or administrative officers with titles such as Provost, Dean, Associate or Assistant Dean, Librarian, Counselor, Registrar, or Coach, even though they may devote part of their time to classroom instruction and may have faculty status.

Academic Rank: Report the academic rank as of November 1, 2024, as follows:

- Report ranked faculty, including ranked teaching faculty, at their named rank at your institution, irrespective of tenure status.
- Visiting appointments are short-term, non-tenure-track positions held by individuals who ordinarily continue to hold tenure-track or tenured positions at other academic institutions. In the past, the AAUP asked that full-time faculty members with “visiting” in their titles be reported in the category of “Instructor,” but in

recent years it became clear that some institutions assign “visiting” titles to faculty members holding other types of non-tenure-track appointments. In such cases, faculty members should be reported at their named ranks.

- If your institution does not have a faculty ranking system, for example if all faculty members are referred to as "instructors," report all faculty on as "No Rank."

Length of contract: Data for faculty whose base contract requires 9 or 10 months of instruction (e.g., two semesters, three quarters, or two trimesters) should be reported as 9 months regardless of whether the pay period extends over 12 months. Data for faculty working 11- or 12-month contracts should be reported as 12 months regardless of the number of installments.

Number of Faculty: Report an unduplicated head count of faculty members in each cell. Do not report full-time equivalent (FTE) figures. Note that projected annual base salary expenditures should be adjusted, if necessary, for faculty working on reduced load (see below).

Total Contracted Base Salaries (Faculty Salary Outlays): Report the projected annual expenditure for full-time contracted base salaries excluding extra loads, summer teaching, stipends, or other forms of remuneration. For faculty working on a reduced load (e.g., 0.75 FTE), adjust the projected annual salary expenditures by determining what their base salaries would be for a full load (e.g., salary ÷ FTE).

For full-time instructional faculty serving as department or program heads and having no other administrative title, report only their base instructional salary (i.e., excluding administrative stipends), adjusting their projected annual salary expenditures if appropriate by determining what their base salary would be for a full instructional load (e.g., salary ÷ FTE).

183.)

Report full-time instructional faculty salaries - Fall 2024. Follow the above guidelines. This means reporting on *all* qualifying faculty, including non-tenured faculty. Report salary data on an actual basis (e.g. do not convert 9 month figures to 12 month figures or vice versa). Report cumulative salaries and not average salaries in each row.

Class Sections

- 185.)
- Undergraduate Class Size: In the table below, please use the following definitions to report information about the size of class sections offered in the Fall 2024 term. Fall 2023 data provided for your reference.
- Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.
- For each undergraduate class section that meets the above criteria, report counts of all students enrolled in those classes, including graduate students. Class sections administered to a blend of face-to-face students and distance learners must include the distance learners.

Graduation and Retention

The graduation and retention questions below *must align with what your institution reported to IPEDS*, unless your institution has since submitted or plans to submit an update to IPEDS for their final release.

The exception involves first-generation graduation. This is not currently collected by IPEDS and this year's survey data will not be used in the rankings, but it is being collected for profiles, search tools and editorial content.

186.)

Bachelor's Degree-Seeking Graduation rates - 2018 Cohort.

The following questions ask for information needed to calculate the six-year graduation rate for the cohort of full-time, first-time, bachelor's or equivalent degree-seeking undergraduate students who entered your institution in the Fall of 2018 and were awarded a bachelor's or equivalent degree.

Schools unable to report a *bachelor's* graduation rate must leave this question blank. This means schools that only report an overall graduation rate (i.e. including associates-seeking) to IPEDS must leave this question blank.

- Include students who entered your institution during the Summer term preceding Fall of 2018.

- Students are to be considered to have received a grant or loan if they received it for the period used for determining the cohort - fall term.
- The Common Data Set uses the term 'Stafford Loans' while IPEDS refers to them as 'Direct Loans' but these both are the same numbers.
- The total column is the sum of Pell students + Stafford Loans students + non-Pell, non-Stafford students, which are each unique counts. However, the rightmost column on first-generation students are of students who overlap across the three leftmost columns and will therefore be double counted.
- Use the Common Application definition (<https://appsupport.commonapp.org/applicantsupport/s/article/First-Generation>), for defining first-generation students. If no parent has a bachelor's degree, or higher, the applicant is identified as a first-generation college student. If there is no information provided for degree level for either parent -- for example, when an applicant left the parental education question blank -- the applicant is assumed to be first-generation (this is the same approach taken by NSLDS). Schools that do not use the Common App or use other applications in addition to the Common App may use the equivalent first-generation methodology. Institutions may alternatively use the final two columns in the grid to separately report known first-generation students with students whose first-generation status is unknown. For any publishing or comparative purposes these two columns will be summed and displayed as first generation or unknown students. Reporting on either or both of the final two columns is not required for submission.

Four year graduation rates display on each school's profile homepage and comparatively in a separate list (<https://dataportal-ga1.usnews.com/survey/index.php/admin/questions/sa/editquestion/surveyid/133119/gid/11131/qid/506030>) because most baccalaureate programs can be completed in four years. But cooperative education programs, professional programs and accelerated bachelors/masters programs may sometimes necessitate that even full-time continuously enrolled students require more than four years to complete their bachelor's degrees. Using the IPEDS/CDS definition in the first question of this section, but this time adding any students in longer than four year programs to exclusions, what was your institution's four year graduation rate for remaining full-time, first-year bachelor's degree seeking students? Non-responders to this question will display the four year value reported in the first question of this section.

194.) First-year retention rate:

Report the same retention rate your institution reported to IPEDS, unless your institution made an error that will be corrected.

For the cohort of all full-time bachelor's (or equivalent) degree-seeking undergraduate students who entered your institution as first-year students in fall 2023 (or the preceding summer term), what percentage was enrolled at your institution as of the date your institution calculates its official enrollment in fall 2024?

Total students retained = students from the fall 2023 cohort who are still enrolled as of fall 2024 + students from fall 2023 cohort who completed their bachelor's program as of fall 2024.

The initial cohort can be adjusted ONLY for the following: death, permanent disability, service in the armed forces, foreign aid service of the federal government and official church missions. No other adjustments to the initial cohort should be made.

Enter integer values.

The number of first-time students seeking a bachelor's degree (or equivalent) who attain a bachelor's degree (or equivalent) by their second fall term is expected to be zero or very small. In exceptional cases when a first-time student does satisfy all degree requirements including full credit completion (e.g., typically 120 credit hours) and is awarded a bachelor's degree (or equivalent) by their second fall term, they are to be considered "retained" for reporting purposes.

Alumni Giving

This is no longer a ranking factor but is still published in school profiles. Please read the full instructions.

Please enter information on undergraduate alumni giving, as defined below in accordance with the updated standards set by the Council for Aid to Education (CAE) and the Council for Advancement and Support of Education (CASE), and used for reporting to CAE for the Voluntary Support of Education Survey.

As always, *exclude* former students who didn't graduate from your institution. Additionally, exclude all student giving (e.g., senior class gift) unless you count the entire senior student body in the alumni of record total. Also restrict reporting to 4-year undergraduate students, including all 4-year undergraduate degree students who obtained additional degrees at your institution.

For individual donations from households with multiple (e.g. two) alumni, report each as separate donors. One would be hard credit and the other would be soft credit. So these soft-credit spouses would be excluded from the third question, but included in the first, second and fourth, and comprised the whole answer to the fourth. *If you are unable to report in accordance with the standards, please blank responses to the alumni giving questions.*

199.)
What was the number of 4-Year Undergraduate Degreed alumni who were legally contactable in academic year 2023-2024. Restrict to alumni who hold one or more 4-year undergraduate degrees, independent of any other degrees. Legally contactable alumni are individuals not marked as deceased for whom you have means of contact and who do not have a total "no contact" status. The individual is contactable if they have a postal address, email or telephone number on file.

2023-2024

This count must only include the number who made a hard-credit gift. Exclude from your count spousal soft credits and additional soft-credit donors like donor-advised funds, family foundations, companies, etc.

Programs/Services for Students with Learning Disabilities

Programs/Services for Students with Learning Disabilities offered during the 2024-2025 academic year

227.) Check one type that describes your school's LD Program:

Structured/Proactive/Comprehensive program:

Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios.

Compulsory student attendance. An advisor/advocate is made available to students.

Self-directed/decentralized services:

There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.

Compliance:

Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.

Assessment

The following section contains a brief analysis of ranking data your school submitted on this year's Main statistical survey. All flagged data (identified by the red asterisk *) must be addressed in order to submit your survey. To acknowledge that the flagged data are in fact correct, please select the confirmation checkbox

associated with the item in question. Once every flagged assessment item has been either confirmed or corrected, please proceed to the verification section.

Making Data Changes – If you notice an incorrect current year value please go back into the survey and correct the data. The question numbers are listed for your reference.

Last year's data are only displayed for reference and will not be used in the rankings nor published on our publicly accessible website for this fall's upcoming rankings edition; however, historical data are published in a subscription product. Please prioritize the current year data. If a value reported last year is incorrect, contact usnews-data-collection@usnews.com (<mailto:usnews-data-collection@usnews.com>) with the updated information and a brief description of why it needs to be changed. We will analyze the requested changes on a case by case basis and get back to you.

Below is a list of some terminology you may encounter:

Large Change - For the questions(s) indicated, the data submitted for the latest year are significantly larger or smaller than the data supplied for the previous year. If the data supplied are correct as entered, please include an explanation in the text box provided. If you need more space to explain than that provided, email us at usnews-data-collection@usnews.com. If the data is incorrect, please go back into the survey and supply new data.

Missing - No information has been submitted for this indicator. If the question does not apply to your institution, or if you cannot supply the data requested, please check the box. If you can supply the missing data, please go back into the survey and enter the new data. If you wish to add in missing previous year data, please contact usnews-data-collection@usnews.com with that information.

High Value - The data submitted are significantly higher than the norm. Please either correct the figure or verify that the data are correct as submitted.

Verification/Submission

278.)
Verification

The final step prior to survey submission is what we call "Verification". Please share the survey responses with a senior administrator such as a President, Provost, Dean (or what your institution considers an equivalent position) for their final approval. When ready, you must fill in all of the information below, including both check boxes, both sets of identification, institution name and the verification date. After the information is entered, hit the red "Submit Survey" button. **Failure to check the verification box and have the President, Provost, Dean or other equivalent senior administrator verify the data and fill out their information may be noted when the data are published and/or may result in the school not being ranked. Once the "Submit Survey" button is selected, your submission is final and will be published.**

If you have any questions about your institution's verification or this procedure, please contact usnews-data-collection@usnews.com.

On behalf of *U.S. News* and its many users, thank you for the time and effort you have given to supply and verify this information.
