Actuarial Research Analytics

Nationwide Insurance in Columbus

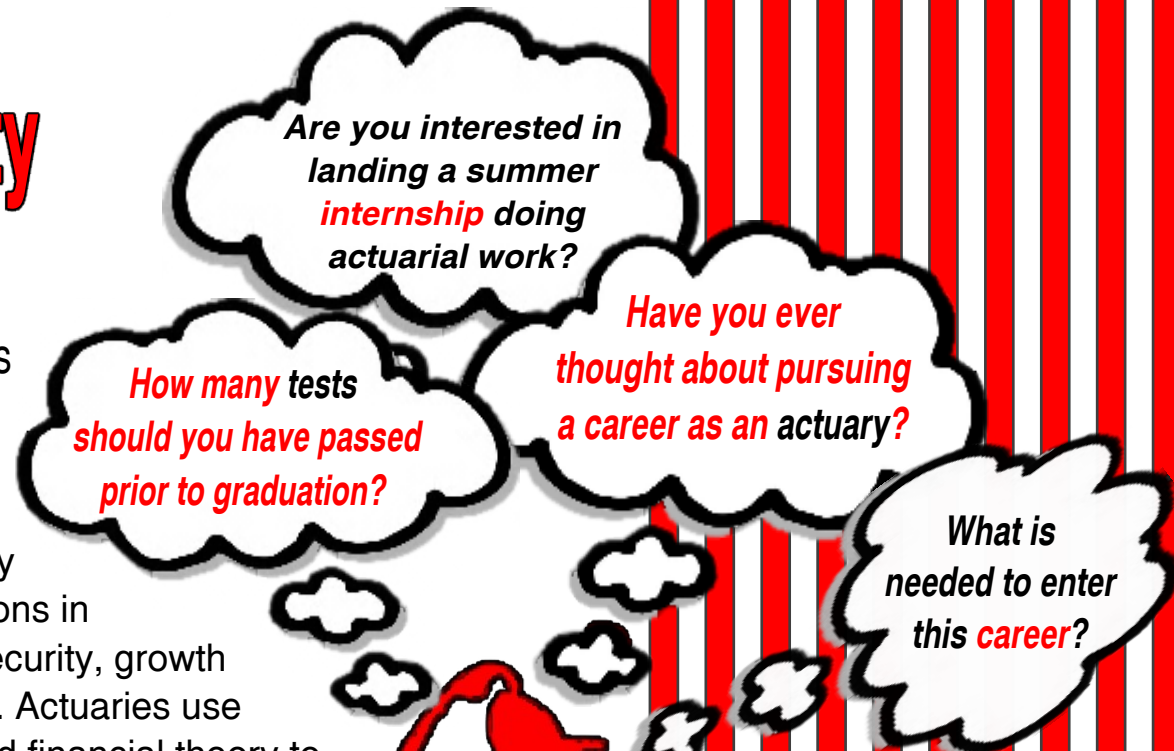

## Actuary

has consistently been rated one of the top professions in the United States (based on job security, growth opportunity, salary, and benefits). Actuaries use mathematics, statistics and financial theory to assess risk in insurance, finance and other industries. They help businesses and clients develop policies that minimize risk and cost associated with risk.

There are tests?!

Come to this talk to hear first-hand what an actuarial career involves and how one can prepare to enter the profession.

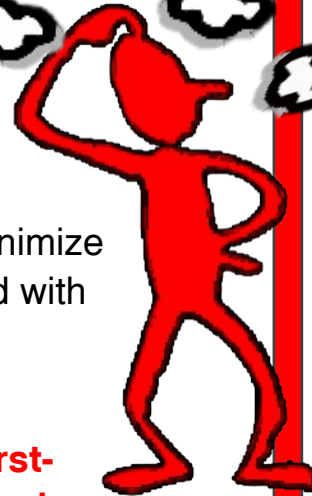

Are you interested in landing a summer *internship* doing actuarial work?

How many tests should you have passed prior to graduation?

Have you ever thought about pursuing a career as an actuary?

What is needed to enter this *career*?

Nailed it!!!
