

## SASS Proctoring Exam Integrity Agreement

Please place all belongings...including cellphones in SASS office or designated area.

Unless otherwise approved by your instructor, you are allowed to bring only pencils, pens and water into the test setting.

Scrap paper is available upon request.

All notes, outlines or scrap paper created during the test will be collected along with the original test.

If you are found using notes or other materials during a test the test will be collected immediately, including all materials in question (including cell phones or flash drives) and given to the chair of the Academic Integrity Board. If there is evidence of cheating following a test or exam a report will be filed with your professor and you will be notified.

I hereby agree to abide by Kenyon's academic integrity policy and pledge that "On my honor, I have not given, received nor witnessed any unauthorized assistance on this work."
