Undergraduate Class Size (CDS I-3): In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2008 term. Fall 2007 data provided for your reference.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions: Please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2008. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

POPULAR MAJORS (CDS J) *The first table below lists the most popular majors for 2007 graduates as reported to U.S. News during 2008 . In the second table below for 2008 Graduates, identify the five majors with the largest percent of bachelor's degrees conferred between July 1, 2007 and June 30, 2008 from your institution by entering the CIP 2000 code next to the name. Then list the percent of students graduating with degrees in those fields. Please visit this link: [CIP 2000 codes](http://nces.ed.gov/ipeds/web2000/cip2000.asp) and check it carefully before entering data. Only five majors can be entered. U.S. News will only accept CIP 2000 codes for questions 322, 323 and 324. For more information on CIP 2000, visit: <http://nces.ed.gov/ipeds/web2000/cip2000.asp>. Question 322 :*

This will open another box directly below which lists the sub-categories of majors (CIP code numbers with up to 4 digits to the right of the decimal place). The sub-categories are arranged by ascending CIP code number. Highlight a major offered by clicking on it (you may click and drag your mouse to highlight multiple selections). Then, click on the button in the middle column with the arrow pointing to the right. Clicking on this button moves the CIP code number of your selection into the right column titled "Majors Offered". To undo a selection, highlight the CIP code number in the "Majors Offered" column and click on the button with the arrow pointing to the left. There is no limit on the number of majors that can be stored in the "Majors Offered" column. The HTML file will only display the CIP code, not its name. Structured/Proactive/Comprehensive program

Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios. Compulsory student attendance. An advisor/advocate is made available to students.

> *Self-directed/decentralized services*

There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.
